

TOP SECRET
OXCART/TRINE

16 February 1968

MEMORANDUM FOR: Deputy Director for Science and Technology

OXCART mission BX6851 was flown on 16 February 1968 against targets of interest in North Vietnam. This was the twenty-sixth mission to date.

The aircraft departed Kadena AB at 0240Z and accomplished one pass over North Vietnam. The mission was recalled after the first pass because of overcast weather conditions in North Vietnam. Mission duration was three hours and fifty-four minutes. Recovery at Kadena AB was normal. Minimal photographic results can be expected due to poor weather.
